Mike,

Please see Sean's comment and review of MT DEQ response to comments to the RI/FS work plan per your request.

Thank you,

Damon L. Repine, CSP

Subject: RE: DEQ Comments on CFAC RI/FS Workplan

Damon,

I have completed my review of the DEQ comments on the revised RI/FS Work Plan and SAP. There were no major issues noted, however they did have two comments requesting that soil vapor samples be screened using the RSLs for residential indoor air. As you may remember, we recommended that the samples be screened using the new EPA vapor intrusion screening level calculator. Let me know if you have any questions.

Thanks,
-Sean
